

PVS-14 Single Battery Monocular

The PVS-14 is the all around best multi functional night vision monocular available. Head or helmet mounted, the PVS-14 allows the user to retain their night adapted vision in one eye while viewing their surroundings through the illuminated eyepiece of the PVS-14.

Another strength is its ability to be weapon mounted behind most collimated daylight aimers and Reflex sights such as the ACOG, Aimpoint and EO Tech systems. This allows the user the ability to use their PVS-14 both as a night vision monocular for increased mobility and tactical awareness and as a short range weaponsight.

Gain control gives the user the ability to increase or decrease the tube gain. Under extremely dark conditions, gain control allows the user to adjust the gain upward, giving a better image. Under high light conditions, details can be washed out due to an excess of light. Lowering the system gain can allow those details to be better seen. Additional features of the PVS-14 include an infrared LED with LED indicator and a low battery indicator.

- Single AA Battery Usage
- Submersible to 66 feet
- Infrared LED Indicator
- High Light Cutoff
- IR Illuminator
- Gain Control

System Specifications

Field of View	40°
Magnification	one power
Diopter Adjustment	+2 to -6 Diopters
Eye Relief	25mm
Objective Lens	26mm, f/1.2
Focus Range	25cm to infinity
Power Source	1 AA Battery
Weight	14 ounces
Size	4.5"L x 2.5"W x 2.75"H

Items Included: with each NVD-PVS-14 (1) Weapon Mount/Small Arms Adapter for MIL-STD 1913 Rail, (1) Shuttered Eyeguard, (1) Headmount Assembly with Browpads, (1) Eyecup, (1) Demist Shield, (1) Operators Manual, (1) Sacrificial Window, (1) Soft Carrying Case, (1) Lens Cleaning Tissue Pack, (1) Helmet/Head Mount Adapter, (1) Lens Cap, (2) AA batteries, (1) Neckcord.
